

SIGNATURE

Adam's signature menu is exactly that, his signature approach to an experience focused evening of destination dining.

The menu has been created to tell the story of the terroir of the Northwest of England, with an accent on Manchester and is delivered in up to 12 servings.

We offer only a single word to introduce each course as our team deliver an explanation table side of which seasonal variety of ingredient we have used and how it has been prepared and a little bit of what the dish is all about.

Some servings will be dictated by the most seasonal produce and may change almost daily or weekly, whilst others are our interpretation of regional specialities and memorable on every visit.

We believe in a sense of true engagement with an emphasis on sense of place. Whilst our setting may be spectacular and befitting of any special occasion, our approach is down to earth, personality driven and produce focused. A true representation of our home in Manchester.
